ALLRED PLUM

A GORGEOUS TREE — A DELICIOUS FRUIT

We know of no other fruit tree that offers such beautiful blossoms during the spring — such outstanding, colorful red foliage all during the growing season — and such delicious eating. Allred is a dual purpose tree — not only does it produce one of the nation's outstanding quality plums, it is absolutely unsurpassed as a beautiful and colorful landscape tree. The fruit looks like a dark cherry, only larger, and its flesh is a juicy, deep red. It is ideal for either eating fresh off the tree, or for making a tasty, bright red jelly. The leaves are RED — the stems and branches are RED. The fruit is RED inside and out, and the tiny seed is RED. Allred is truly ALL RED. Labelled with a BLUE stripe over a WHITE stripe.

PRICE — ONE YEAR TREES — \$1.10

WOLFE'S BRUCE PLUM

The best large red Plum grown in the South. The tree is very healthy, bears very young and produces loads of Plums. It ripens early in June. Other varieties of Plums must be planted with Bruce for pollination. It is the only variety on our list that is not self-fertile. In commercial planting, we recommend planting one pollinator to twenty Bruce. Bruce is labelled BLUE over RED.

OUR BLUE RIBBON

Peaches

FOR EATING - CANNING - FREEZING

← NEW ELBERTA

This is a juicy, yellow freestone that ripens about June 20. The first of its class to reach the market. It is a good home orchard variety, since it is an extra fine all-around peach. Whether you want to eat it juicy ripe off the tree, can it, or freeze it, you'll like New Elberta. Grown and guaranteed by Wolfe, New Elberta is labelled with one PINK stripe.

Prices — Large Size \$1.30 — Medium Size .90

INDIAN

Mrs. Wolfe says it is the finest pickling peach in the land, and women who live in the Stephenville area come to our orchards every year when the Indians get ripe — they buy them and pickle them, and the whole family has a treat all winter long. Our true-strain, old Indian Cling ripens July 20. Indian is labelled ORANGE.

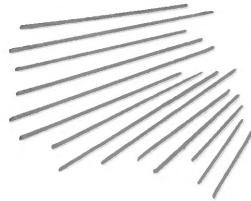

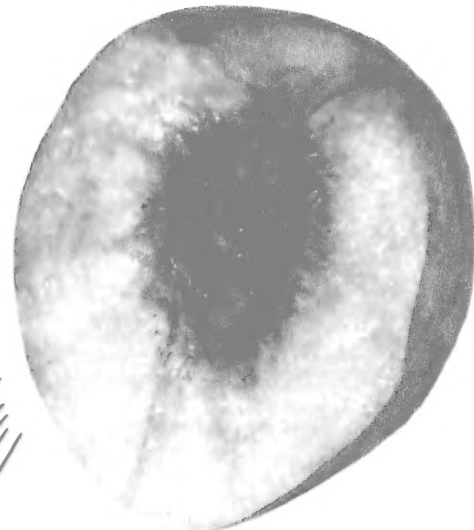

Price One Year Selected Trees \$1.00

MELBA

QUEEN OF ALL
EATING PEACHES

By far our greatest find in an all-purpose, large, delicious, honey-hybrid peach. Melba starts ripening early in June and lasts most of July. Never has a fruit variety received such unanimous acclaim as Melba. Not one person has failed to say, "That's the best peach I ever tasted." Melba, the Honey-Hybrid, Queen of all eating peaches, is labelled with two RED stripes.

Prices — Large Size \$2.00 — Small Size \$1.50

TEXABERTA

A perfect freestone that ripens about July 10. This outstanding peach has not missed a crop at Belton, Texas, since it was originated 24 years ago. Combine the best qualities of all peaches, add a few, and you have Texaberta. It has bright red, juicy flesh around the seed, forming into deep, tender yellow toward the bright red-covered skin. Texaberta is labeled with a RED stripe.

Prices — 1 Year Trees Only \$1.25

ELBERTA

It's the oldtime Elberta that our parents knew and remembered as being one of the most dependable bearing trees of all time. Our true Elberta, a huge, yellow freestone, ripens July 10th. Labelled with one GREEN stripe.

Prices Large Size \$1.30 — Medium Size .90

HALEHAVEN

A prize-winning freestone that ripens June 25th. Halehaven is a large, beautifully colored, yellow-fleshed peach that is without question one of the finest canners grown. It is perfectly self-fertile, extremely hardy, prolific, and a good pollinator for other peaches. Labelled with two BLUE stripes.

Price Large Size \$1.50 — Medium Size \$1.00

FRANK

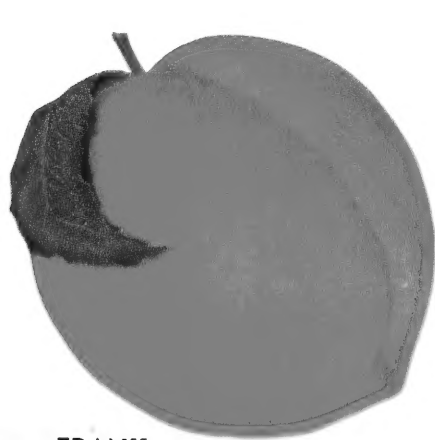

FARM AND RANCH Magazine says, "The most outstanding peach produced in the Southwest." It is a large, firm, juicy, yellow cling that ripens August 10th. Frank's record year-in, year-out production, proves its value as an outstanding frost-resistant variety that is a "must" in every home or commercial orchard. Guaranteed by Wolfe Nursery and labelled with one WHITE stripe.

Price Large Size \$1.50 — Medium Size \$1.00

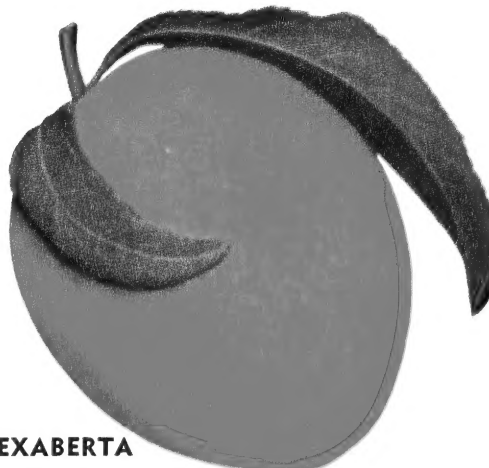

GIANT HALE

A grand Champion Show Peach that draws more attention and brings higher prices on the market than any variety that we know. Giant Hale is a yellow freestone that ripens July 15th. Its skin is a deep, rich red, and its meat a bright yellow. Labelled YELLOW.

Price — Large Size \$1.30 — Medium Size \$.90

TEXABERTA

ELBERTA

HOLLAND APPLE

Being a native Texan, Holland is especially adapted to our climate and soils, but has proved outstanding wherever Apples are grown. Holland is the perfect apple for home planting. Of course, its most outstanding point is that it will consistently produce apples for us here in the South. Then, it's self-fertile. You do not have to plant another apple with it to get it to produce. You get heavy production with just one tree. It ripens early — July 20. It will fruit for you the 2nd year following planting. Labelled ORANGE over RED.

PRICES ON HOLLAND

2 yr. Large \$2.00 — 2 yr. Medium \$1.50 — 2 yr. Small \$1.00

GOLDEN DELICIOUS

By far the outstanding Apple in its class. Self-fertile and an excellent pollinator in the home or commercial orchard. Golden Delicious is a mild, juicy, sweet, crisp, white-fleshed apple with new-gold skin that has a distinctive flavor all its own. It is a richly fragrant and appetizing apple that belongs in every home planting. Golden Delicious is labelled with an ORANGE stripe over a WHITE stripe.

PRICES

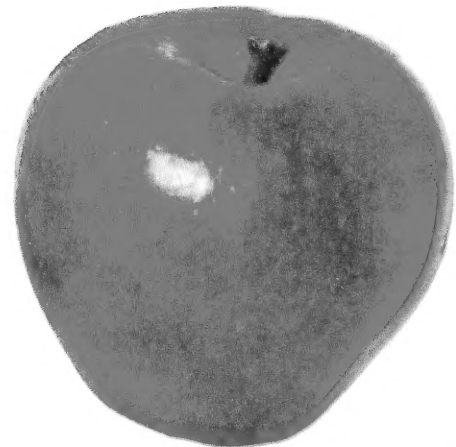

Large \$1.35 — Medium .90

DOUBLE RED DELICIOUS

The old King of red eating Apples that is grown from coast to coast with equal success. By thinning the fruit properly, Double Red will develop into a huge size. Our pure-strain Double Red bears loads of big, sweet, firm apples, that are a treat to enjoy. Trees you receive from Wolfe Nursery are budded from our own bearing orchards. Store-bought apples are picked before they are ripe and don't compare with those picked from your own trees. Double Red Delicious is NOT self-fertile and MUST be planted with either Holland or Golden Delicious. Double Red is labelled ORANGE over BLUE.

THOMPSON SEEDLESS GRAPE

**THOMPSON
SEEDLESS**

A sweet, delicious, seedless grape known the nation over as one of the finest of all table grapes. Thompson Seedless is sold in stores at high prices. You can take the money that it costs you to buy a few bunches at the store and buy your own vines that will produce all the sweet, delicious, home-grown grapes you can use. Plant some of our select grapes — say, at least one of each variety in your back yard on your fence, or even in landscaping planting. They will be a source of pleasure to you and your family for years to come. Labelled YELLOW.

Price Each — 80¢

PAPERSHELL

Pecans

Permanent

Unsurpassed Shade Trees

Producing Profit Every Year

GARNER

Plant your pennies and watch your dollars grow. Garner starts growing dollars in a hurry. We have fruited this great Pecan alongside of many others during a period of 16 years and it has made more money per tree than any other. We have never been able to supply the demand. Garner will bear at least one-third more per tree than other Pecans and produce nuts the first or second year after you plant them. WHY? Because Garner just naturally bears young. Add this desirable trait to Wolfe's "Machine-dug" root system that reduces "TRANSPLANT SHOCK" — the use of FRUIT BUDS in propagation, and you have the answer to why people prefer Wolfe's Garner Pecan Trees. Garner is FROST-RESISTANT — bears every year and is one of the first to mature in the fall. It is a TRUE paper-shell — so thin it can be cracked with the fingers. The creamy, delicious kernels are extremely rich in oils, proteins, carbohydrates, vitamins, and distinctive flavor. Plant in uplands of sections only at altitudes of 600 feet and UP. Garner is one of the most outstanding Western varieties ever discovered. Should be planted with Mahan for best results. Order your trees early. Get the benefit of early rains. Garner is labelled RED.

The World's Largest Pecan

Giant MAHAN

Can you imagine Pecans so large that the clusters of nuts look like bananas on the trees? That's Giant-Mahan — THE WORLD'S LARGEST PECAN. The nuts look somewhat like Schley but they are more than twice as large. Giant-Mahan is also a true brittle paper-shell and brings more money per pound than any other Pecan. This variety has become increasingly popular due to the healthy, vigorous-growing tree which makes a beautiful shade specimen. It grows upright and puts on dense, dark green foliage. The leaves are extremely large. Added to this feature, it is adapted to all sections and is resistant to common diseases. Giant-Mahan is a heavy producer and our Machine-Dug root system enables it to start bearing soon after you plant it. Giant-Mahan and Garner make an ideal pair for home or commercial planting. Mahan is labelled with one WHITE stripe.

BURKETT

The leader and will continue to be in Western varieties. It is a regular and heavy producer of large, round, fat Pecans that bring top market prices. As long as we have been in business, the market demand for Burkett and Garner has never been supplied. Its flavor cannot be equalled. Plant Western Schley and Garner with Burkett for perfect pollination. Plant only in altitudes of 600 feet and up and on well-drained land. Burkett is labelled with one BLUE stripe.

WESTERN SCHLEY

The perfect cracker in the larger Pecan class. It never fails to prove that "Money DOES Grow on Trees." The tree is remarkably healthy, a strong grower, early and heavy producer. Western Schley is a genuine Risien Gold Medal Pecan, and, remember — they bear young, even in the nursery row. Resistant to scab and rosette. Labelled with a GREEN stripe.

NOW OUR PAPER SHELL PECAN SPECIAL IS OFFERED IN 3 SIZES. Several years ago, many of our customers asked us for a pecan special offer. We came out the next year with our original pecan special. It was 3 trees, 1 to 3 ft. size, for \$5.00. That special meant a saving of \$2.20 to our customers and thousands of good people bought them. Many, many customers who wanted larger trees at a bargain price have written us — so, for the first time, we offer our Gold Medal Collection in three sizes. We are selecting three of our best varieties: Burkett, Stuart, Giant-Mahan, Garner, Success, or Western Schley — those best adapted to your location. Before you know it, these select Wolfe-grown trees will be producing loads of big, delicious paper-shell pecans.
